WORDLESS WISDOM.....

.....FOOD FOR THE

SOUL

Shakespear says the entire world is a stage and all the men and women are players.

They have their exits and they have their entrances. We enter on the stage of world to play our role with the best of our ability, give our best to the world and exit when the time comes for us to exit. But that's not what we do. We enter the stage and somewhere halfway down our performance; we loose sight of our purpose and create our own lines.

And that is when we suffer!!!!!!

We are born in this world for a higher purpose/ a higher performance which is to seek higher knowledge and serve the mankind. But as we start our magnificent journey of life, this higher purpose starts to fade away and we start living for a very small purpose.

We also forget all the powers we are born with and only remember and utilize the limited strength on our body level.

There are three types of strengths we all possess.

**Body level strength (Bahu Bal)
Mind/Intellect level strength (Budhi Bal)
Yogic strength on Self level (Atmic Bal)**

The first two every one is aware of but the third one, we have never even considered that we have it and therefore, we forget to utilize it.

The subtler the strength, the greater the power. For example within the human body we have gross organs like liver, kidney, heart etc. but what controls the activity of these organs is the subtler strength of the pituitary gland. Similarly within us we have Body Strength with which we achieve worldly power/ success. This strength seems to fail when it comes to the second level of Mind/Intellect strength which enables us to negotiate and maneuver the world. Subtler still then Body/ Mind/Intellect Strength is the strength of Self/ Yog. If you can tap into this strength, you can achieve anything in this world.

Swami Ram Tirath said so beautifullyWake up...don't stop till you reach to this higher state of consciousness. Along the way many realizations will come to you. Material, emotional successes will come to you. You should have the courage to keep going. Stick to your goal and everything will come to you. So wake up to your Yog Bal. Once you taste the joy of what this is, you will then be in the constant state of inspiration. When you are pensive in the thought of higher self, your mind is awakened and you achieve peace, health, happiness and infinite healing energy.

Let's not get drowned in the sea of materialism. One needs to drive the journey of life with one aspect of our mind constantly focus on this higher self and you will be showered with divine powers within you and all around you to enjoy the experiences of life every moment. You will find that once you have tasted this, there is no going back!!!

Living life with the strength of self through Yog insulates us from the effects of worldly

living. The external world is a rat race of greed and glamour. It can never give us true joy and purity. In this rat race even if one wins, one continues to be a rat.

HIGHLIGHTS OF THE MONTH

Power Of Breath Speaker Renu Sharma conducted a seminar on Yogic Breathing sponsored by Satya Yoga. Following is the testimonial from Michele Adriansethe Director of Satya Yoga :

Namaste to the light in my life - my dear, dear Renu!

You have forever made me grateful for my breath, and I am still so humbled by your willingness and trust, and most of all your friendship! My love for you knows no words, only shines brightly when I think of you, and each and every time I breathe!!!!!!

I wanted to report back on the Power of Breath Seminar held this morning at Satya Yoga. It was probably one of the most memorable events I can recall at the Center - funny! informative! life changing - truly! Personally, I can't remember a time when I

have felt so giddy, light, alive and free!

Renu, you are a very smart presenter - direct, hysterically funny, and willing to share techniques and meditations, as well as your own experiences, that left us laughing, crying and literally jaw dropping! I think I can speak on behalf of almost everyone who was there in saying that it could have continued for another 2 hours, and no one would have complained. Sooooooooooooo.....on that note.....

**SO MANY THANKS to Renu!
